PROFESSIONAL SUMMARY

Results-driven Software Developer with expertise in Java, JavaScript, HTML, CSS, and SQL. Strong problem-solving and analytical skills, effective time management, and interpersonal communication abilities, with experience in full-stack development and project management, and a proven track record of creating innovative solutions for online education and personalised user experiences.

KEY SKILLS

• Time management • Strong Communication skills • Analytical thinking • Problem-solving skills • Interpersonal skills

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, HTML, CSS

Operating Systems: Windows, Linux

DBMS: MySQL, SQL

Technologies: Eclipse, VS Code, MS Excel, Git, GitHub

EDUCATION

St. Francis College (December 2024)

Master of Computer Application

CGPA: 6.59/10

BIMS (September 2022)

Bachelor of Computer Application

CGPA: 7.1/10

PROJECTS

1. Online Education (Full Stack Java)

Tools and Technologies: HTML5, CSS3, JavaScript, Java, MySQL

- This project lets users learn online by accessing courses, videos, and other study materials flexibly.
- It has features like course management, login system, progress tracking, and safe data storage to make learning easy and organised.

2. Dream Destination (MERN Full Stack)

Tools and Technologies: React.js, Express.js, Node.js, MongoDB

- Built a user dashboard where people can sign up, manage their profile, and see their booking history.
- Created an easy-to-use page to browse and filter tour packages, check details and reviews, and book trips safely.
- Improved the overall experience with password management and a responsive design that works well on all devices
